Infinera Deployment Services

Accelerate deployment. Accelerate revenue.

When you deploy faster, and more cost effectively, your business generates revenue faster, too. And with our team of expert engineers and program managers on your side, you'll get the highest quality deployment in the fastest possible time.

With Infinera Deployment Services, you'll enjoy:
- Fastest time to revenue
- Optimized deployment expenses
- Network QoS differentiation

Build the deployment solution that's right for your business.
No two businesses are exactly alike—and neither are the networks that power them. That's why we offer a comprehensive range of flexible deployment services that allow you to choose precisely when and where you want our help.
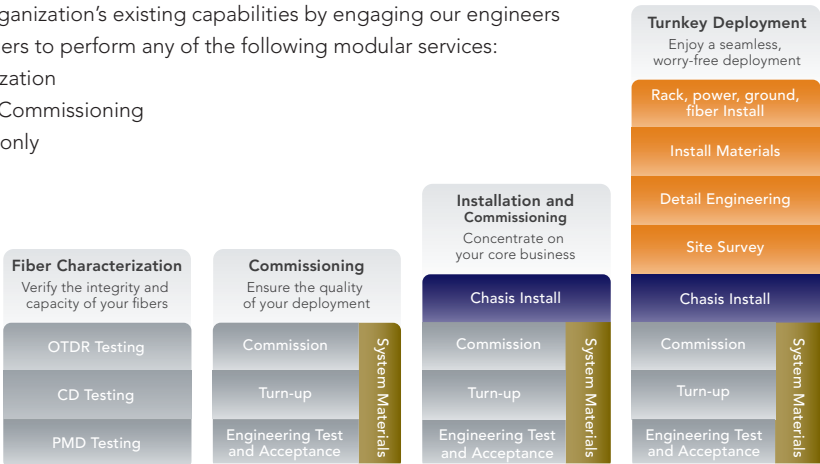

Turnkey Deployment Services
Get expert assistance, including professional Program Management, for every step of your deployment. Services include:

infinera®

Program Management

On time. On budget. No surprises.
Infinera understands that innovative technology succeeds when it's implemented rapidly, and that groundbreaking features work best when they don't break your budget. That's why we offer professional program management services with every Infinera deployment.

With Infinera Program Management Services, you'll enjoy:
- Simplified project management
- Rapid and efficient communication
- Reduced deployment costs

Keep your deployment running smoothly—and ensure your project's success.
With extensive experience and training in all areas of deployment—from site survey and design to technical training and certification—our seasoned Program Managers have the full-spectrum expertise needed to carry out any type of deployment project.

Complete Project Planning and Budgeting
Your project starts with the assignment of a dedicated Program Manager. Working side-by-side with your internal team, this project management expert will help you develop:
- A detailed scope of work
- A comprehensive project timeline
- A targeted project budget

Start-to-Finish Supervision
After initial project planning and budgeting is complete, your Program Manager will ensure that your project running smoothly every step of the way. Services include:
- Resource allocation and coordination
- Subcontractor management
- Risk management
- Escalation services
- Project reporting at all major milestones
- Acceptance and project closure
