Infinera Training Services

Hands-on training that's as flexible as our technology.

Discover individualized courses for everyone on your team, covering everything from Infinera product overviews to in-depth maintenance certification. With our comprehensive Training Services, your group will get the training they need, whenever and wherever they need it.

Invest in Infinera Training Services, and you can expect:

- Fewer network incidents
- More knowledgeable and prepared staff
- Increased operational efficiency

Get individualized instruction at an Infinera Training Center.

Our U.S.- and European-based Training Centers feature state-of-the-art laboratories specially designed for hands-on training, real-time troubleshooting and comprehensive fault finding.

Fully Equipped for Training

At an Infinera Training Center, you can quickly get your staff up to speed with expert training supported by world-class technology, tools and support:

- Laboratories equipped with Infinera systems, products and training tools
- Classrooms designed for interactive group learning
- In-depth certification courses offered only at our training centers

"The most satisfying part of my job is when a student's eyes pop open, and the light bulb turns on, and I know they've got it."

—Manager, Customer Technical Training

Flexible Training Options

– **Get the training your team needs:**

– **At an Infinera Training Center**

– **At your own facility**

– **Via web-conference**

infinera®

Additional Training Options

Customer Facility Training

Efficiently train your staff, without ever leaving your site. Let our experts bring the Infinera education directly to you, so your whole team can train in a familiar facility, and you can make the most efficient use of your training dollars. With the Infinera Mobile Training Kit, we'll equip your facility for any type of training by shipping the Infinera systems and training tools you need directly to your location prior to training.

Web-conference Training

Get affordable, flexible training from virtually any location—and bring together team members from across the globe in an online, interactive classroom.

Live training by expert Infinera instructors

Infinera Web-conference training brings dynamic classroom interaction directly to your desktop with:

- Interactive, online courses
- Live instructors teaching via webcam
- Real-time Q&A via webcam or chat

A Wide Range of Courses

Our comprehensive training courses for the Infinera DTN, Infinera ATN, and Infinera Network Planning System include:

- Product overviews
- Turn up and test training
- Operating, Administrating, Maintaining, and Provisioning Infinera Management (OAM&P) certification
- Suite overviews
- Digital Optical Network troubleshooting
